

Total Ionisation-with-Excitation Amplitudes in Electron-Impact Helium Collisions within the S-Wave Model

Tom Ross, supervised by Professor Igor Bray

ABSTRACT

Contents

1	Introduction	2
2	Theory	2
2.1	Convergent Close-Coupling Method	2
2.1.1	Laguerre Basis	2
2.1.2	Target States	2
2.1.3	Total Wavefunction	2
2.1.4	Convergent Close-Coupling Equations	2
2.2	Scattering Statistics	2
2.2.1	Scattering Amplitudes	2
2.2.2	Ionisation Cross-Sections	2
2.3	Electron-Impact Helium Ionisation	2
2.3.1	Auto-Ionising Target States	2
3	Results	2
4	Conclusion	2

List of Figures

1 Introduction

2 Theory

2.1 Convergent Close-Coupling Method

2.1.1 Laguerre Basis

2.1.2 Target States

2.1.3 Total Wavefunction

2.1.4 Convergent Close-Coupling Equations

2.2 Scattering Statistics

2.2.1 Scattering Amplitudes

2.2.2 Ionisation Cross-Sections

2.3 Electron-Impact Helium Ionisation

2.3.1 Auto-Ionising Target States

3 Results

4 Conclusion
